

LET'S TURN IT AROUND

- In the months of January-April 2018, there was a substantial increase in injuries to our workers that required medical attention.
- **Increased awareness** may have helped prevent most of these incidents.

Slips/Trips/Falls

Ergonomics

Bight

Jagger

What We Can Do To Turn It Around

- Watch your footing at all times, especially when stepping backwards or going up and down any equipment
- Be aware of your body's positioning when lifting, pulling or pushing heavy materials
- Know where cargo is at all times to avoid getting caught in the bight
- Take caution when handling slings, as jagers may be present
